

## WE MAKE IT EASY.

Advance2000 offers full-service IT solutions including private cloud computing, network design and implementation, telephony and IT consulting to small, medium and enterprise-sized businesses. Founded in 1989, Advance2000 allows businesses to respond quickly to a demanding environment by improving performance, redundancy, security and collaboration.

Serving clients throughout the U.S. and Canada, Advance2000 provides IT solutions for every industry including architecture, engineering, legal, education, healthcare, government and manufacturing.

## THE ADVANCE2000 DIFFERENCE

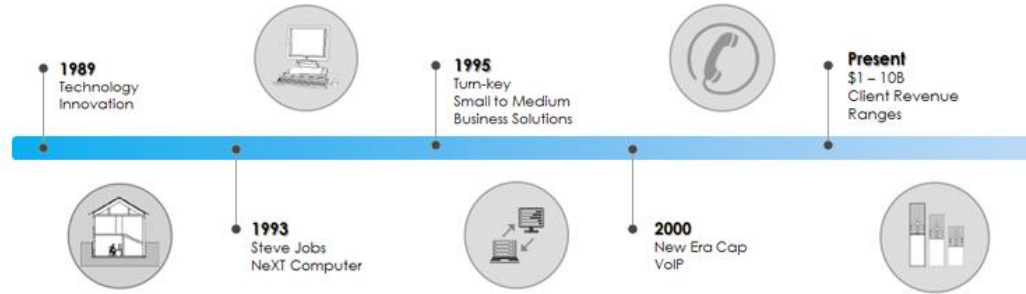

We have the expertise, proven methodologies and tools to plan, deploy, optimize and manage complex multi-vendor IT solutions, supporting your business goals while reducing capital investments.

**People:** Our dedicated, highly-trained engineering staff hold certifications from companies including Microsoft, Alcatel-Lucent, HP, Citrix, VMWare, EMC and LifeSize.

**Turn-key Solutions:** We offer a single point of contact for all of your IT needs.

**State-of-the-Art Data Centers:** We host and manage our solutions in multiple data centers owned and operated by Advance2000 with on-site staff members providing 24 hour support, site and access monitoring.

**Commitment:** We optimize our clients' infrastructure, offer high performance IT solutions and deliver increased productivity.
