

ADVANCE2000 PRIVATE CLOUD COMPUTING

WE MAKE IT EASY.

Private Cloud Computing is a secure, dynamic mobile platform for delivering IT services to all employees throughout an organization. Using applications hosted at a remote IT facility (data center), the information is accessible anywhere via a secure Internet connection.

YOUR BUSINESS WILL BENEFIT FROM OUR PRIVATE CLOUD COMPUTING WITH:

- Greater Mobility
- Enhanced Productivity
- Reduced Capital Expenditures
- Unlimited Scalability
- Enterprise-Level Security
- Green Computing
- Improved Business Continuity
- Improved Accessibility

WHAT CAN THE ADVANCE2000 CLOUD DO FOR YOU?

Our experience, paired with our innovative data center, will allow you to dramatically improve business agility, mitigate risk and reduce expenses. Without the stress of managing your day-to-day IT operations, you can focus on what's most important, your business.

WHAT SETS ADVANCE2000 APART?

We provide our customers with the highest level of customer service. Advance2000 offers 24/7/365 customer support, guaranteed system uptime, state-of-the-art fully redundant data centers and enterprise level data protection. We provide these Private Cloud Computing benefits without sacrificing critical business functionality.
