

# IT Solutions for the AEC Industry

## Advance2000 – The IT Backbone of AEC Firms

With a history of serving hundreds of AEC firms, cutting-edge solutions from Advance2000 help firms stay ahead of industry trends, improve project delivery, and reduce operational risks. Let us handle your IT, so you can focus on what you do best—delivering exceptional projects.

## Why Choose Advance2000 for AEC?

**Greater End-User Productivity:** Faster cloud desktops, seamless collaboration, and optimized IT systems improve the productivity of architects, engineers, and project managers

**IT Modernization:** We provide a comprehensive roadmap to modernize your entire IT ecosystem, reducing cyber risks, optimizing performance, and staying ahead of industry standards

**High-Performance Secure Cloud:** Our cloud infrastructure is built on the latest CPU and GPU technology, generations ahead of the competition; ensuring faster, more secure and reliable computing resources

**Cost Savings:** Up to 40% of infrastructure costs can be saved compared to mainstream cloud providers. Our flat-rate, unmetered pricing model allows you to focus on growing your business without the worry of unpredictable IT costs

**Simplified IT Management:** Our A2000 MyPortal provides complete transparency and control over your IT landscape. Easily manage utilization, users, cybersecurity, data backups, and more—all in one inclusive platform

**Comprehensive Cybersecurity Management:** Protect your systems with daily external vulnerability scans, malware protection, and patch management. We handle your cybersecurity, allowing you to focus on your core business with peace of mind

**IT Risk and Compliance Score:** Stay ahead of risks and regulatory requirements with our IT Risk Scorecard. This proactive approach ensures compliance and minimizes IT vulnerabilities

**Enhanced Support:** Our 24/7/365 helpdesk offers industry-leading customer support, resolving 90% of incidents on the first call. With an average wait time of fewer than 4 minutes and a 96% customer satisfaction rating, your business stays operational without disruption

**Live Monitoring:** Our team continuously monitors, detects, and responds to potential issues 24/7/365, ensuring minimal downtime and maximizing efficiency
